The House Proceedings Devoted Almest Exclusively to Civil Appropriations-The Memphis Customhouse Clause Adopted at Last-Other Appropriations.

The Senate Works off the River and Harbor Appropriation Bill, after Making Several Important Changes at Various Points.

The Improvement of the Mississippi Elicits Considerable Discussion - The Proposition to Appoint a Commission to Direct the Work Defeated.

In the House. WASHINGTON, June 11.-There was a good deal of noise and confusion this mornng, and short, sharp discussion in regard to the order of business. Mr. Atkins asked whether it would be in order to suspend the rules and discharge the committee of the whole from the further

consideration of the sundry civil bill and put he bill on its passage. The speaker announced that it would. Mr. Cox [N. Y.] said he would filibuster gainst that motion to the end of the term. Finally the house went into committee of the whole, Mr. Carlisle in the chair, on the sundry civil appropriation bill. The appropriation for the Albany postoffice was increased from fifty thousand to one hundred and ninety-five thousand dollars. Mr. Aldrich moved to increase the approiation for the Chicago customhouse from \$300,000 to \$650,000. It would save to the vernment, in the matter of rents, etc., at east \$1,000,000 within the next two years.

Mr. Foster moved to fix the amount at \$400,000. Mr. Atkins said he had no hope of beating any of the propositions for increase of ap-propriations, since he had learned that last evening Mr. Page had gone around carrying a list of names asking gentlemen to attend a meeting for the purpose, he supposed, of forming a combination to put those appropriations through.

Messrs. Harrison and Sayler denied all knowledge of such meeting. Mr. Dunham said he had heard of a combination. Mr. Eden suggested that there had been a good deal said about getting rid of the sinking fund, but he thought it would be gotten rid of without much trouble if these big appropriations were made. Mr. Price said if the combina ion did exist its members were alive, and should be trotted out and investi-

After further discussion, Mr. Foster's proposition was agreed to, and Mr. Aldrich's mo-tion thus amended was adopted—84 to 75. Mr. Brentano offered an amendment requiring the supervising architect to finish the parts of the building at Chicago to be used by the district and circuit courts, sub-treasvenue, by the first of July, 1879. Adopted. Mr. Banning moved to increase the appropriation for the Cincinnati cust mhouse from \$300,000 to \$400,000. Rejected—76 to 84. The appropriation for a building at Evansville, Indiana, was increased from \$20,000 to \$45,000. The appropriation for a building at Grand Rapids, Michigan, was increased from

\$20,000 to \$47,000. Mr. Atkins yielded to the two preceding amendments, stating that the principle of the bill had been broken by the action of the house in regard to the courthouse at Atlanta. By its action the house had expressed its wish that when buildings were nearly completed a sufficient amount should be approoriated for their completion.

Mr. Boone opposed the doctrine of relieving the labor of the country by making large appropriations for public buildings. Labor could only be relieved by repealing the infamous resumption law, by paying the fivetwenty bonds in greenbacks, and by a return to national circulation. If that were not enough, he would issue greenbacks to an amount sufficient to meet the wants and necessities of trade, even if it required one housand million dollars to do so. Mr. Bayne offered an amendment authorzing the construction of a customhouse at ittsburg. Ruled out on a point of order. Mr. Young offered an amendment providing that the Memphis custombouse building

e constructed out of Tennessee marble, provided that it shall cost no more than now provided for by law. Adopted.

Mr. Cole offered an amendment increasing the appropriation for the St. Louis customhouse from three hundred thousand to four hundred thousand dollars. Rejected. The committee then rose and the house

Senator Burnside said the commission con-templated by the bill, as it stood before the senate, would result to the detriment of the public service and end in corruption. Senator Beck said he was not opposed to he improvement of the Mississippi, but the effect of the amendment providing for this Mississippi river improvement commission would be to destroy the usefulness of the engineer corps of the army in making surveys of the Mississippi river.
